Terms and Conditions of Reporting

1. It is presumed that the specimen belongs to the patient named and identified in the test requisition form (TRF).
2. To maintain the integrity of a clinical sample, the sample preparation, collection, labelling, storage and transport has to conform to the guidelines of H2G Diagnostics. H2G Diagnostics cannot be held liable for incorrect results of any samples which are not as per the guidelines issued.
3. A test requested might not be performed if the sample quantity is insufficient or sample quality is unacceptable.
4. In case of samples collected outside H2G Diagnostics, it is presumed that patient demographics are verified and confirmed at the point of generation of the said sample. Hence H2G Diagnostics cannot be held liable for misrepresentation or misuse.
5. Individual laboratory investigations need to be interpreted in context with Clinical Findings and other relevant investigations to arrive at a definitive diagnosis. Hence the results of the laboratory investigations are for the interpretation of referring clinician only and as such are not intended for medicolegal (forensic) applications.
6. Partial reproduction of these reports is not valid and should never be resorted to.
7. Some tests are outsourced to other laboratories to provide a wider test menu to patients.
8. The reports are personally validated, authorised and signed digitally using LIMS.
9. All disputes/claims concerning the reports are subject to Mumbai jurisdiction only.

Terms and Conditions of Reporting

1. It is presumed that the specimen belongs to the patient named and identified in the test requisition form (TRF).
2. To maintain the integrity of a clinical sample, the sample preparation, collection, labelling, storage and transport has to conform to the guidelines of H2G Diagnostics. H2G Diagnostics cannot be held liable for incorrect results of any samples which are not as per the guidelines issued.
3. A test requested might not be performed if the sample quantity is insufficient or sample quality is unacceptable.
4. In case of samples collected outside H2G Diagnostics, it is presumed that patient demographics are verified and confirmed at the point of generation of the said sample. Hence H2G Diagnostics cannot be held liable for misrepresentation or misuse.
5. Individual laboratory investigations need to be interpreted in context with Clinical Findings and other relevant investigations to arrive at a definitive diagnosis. Hence the results of the laboratory investigations are for the interpretation of referring clinician only and as such are not intended for medicolegal (forensic) applications.
6. Partial reproduction of these reports is not valid and should never be resorted to.
7. Some tests are outsourced to other laboratories to provide a wider test menu to patients.
8. The reports are personally validated, authorised and signed digitally using LIMS.
9. All disputes/claims concerning the reports are subject to Mumbai jurisdiction only.
